DENTISTRY or DENTAL SURGERY.—Dr. VAN PATTEN continues at his pleasant and central location, (a few doors west from Brown's and Coleman's Hotels.) He pledges himself to perform any and every operation appertaining to his profession, as successfully and with as little pain as can be done in any of the Eastern cities.

He inserts teeth of any desired shade and size, with or without gums, singly or in full sets, as cases may require, and usually secures them to the gums by that most cleanly and comfortable principle of atmospheric pressure. Yet, being fully competent to apply every known principle, his patients shall always have the benefit of the mode best adapted to the condition of their mouths.

Having been long established in Washington, he deems it unnecessary to expose patients 'names for reference, but would suggest to strangers that they inquire of citizens.

N. B.—No charge for work that should come short of what was promised in the contract, nor ever any charge for repairing or even renewing his work.
